Conclusion:

Created this rough model:-

Mock-Up

Common Page: → Login Page → Teachers Login
Admin Login

Admin: → Data Entry Page [of faculties, batches, course]
View all the input data
Final Page after time-table data is complete
[Generate time-table]

Access for Admin: → Delete all data, Edit all data except time slots provided by faculties

Faculties: → Page containing respective courses and batches
Data Entry Page of the time slots for respective courses
Final time table [if generated]
Page to view their own time-slots allocated.

Access for faculties: → Delete and edit their own data.

Additional feature: → Notification Panel to let the faculties know whether the time table is generated or not.

Tasks Assigned:

To learn the language required for web development.

Next Meeting Agenda:

To decide the algorithm for timetable generator.
