

# Team Meeting 1

**Date:** August 5, 2018

**Day:** Sunday

**Time:** 10:00 p.m

**Duration:** 1hr

## Attendees:

1. Aman Yadav ( 201651007)
2. Dakshkumar Gondaliya ( 201651014)
3. Kirtika Singhal ( 201651024)
4. Mayank Pathela ( 201651029)
5. Nikhil Sachan ( 201651034)
6. Parmeshwar ( 201651035)

## Goals:

1. To identify the skills of each member.
2. To decide the technologies on which we can work, i.e, deciding if our project will be ML-centric or purely based on Web Technologies.

## Discussions:

Meeting started with the discussion about the skills of members:

1. One of the members has knowledge of Machine Learning and another person knows about BlockChain.
2. Most of the members are familiar with web development tools.
3. Three of the members are good at front-end development while the other two have knowledge of backend-development.
4. Based on the capabilities, deciding which technology we should use with which every member is comfortable and can learn, if required, within the specified time.

## Conclusion:

We agreed to work on a purely web-based application as it was feasible for all team members.

## Tasks Assigned:

To think about the projects we can work on.

## **Next Meeting Agenda:**

Project Ideas discussion.
