Previous Meeting Follow Up:

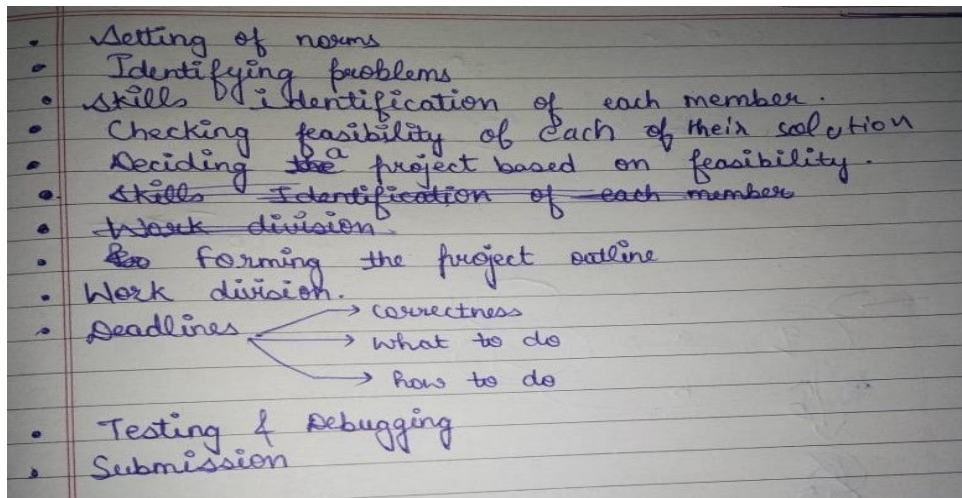

We read a research paper on Automated Time Table and studied the legal issues related to old books sale.

Goals:

1. Finalizing the project.
2. Deciding the project architecture.

Discussions:

- 1) Feasibility analysis of all the projects was done, written in a separate document.
- 2) After analyzing the feasibility of the project and skills of each member, the idea for developing the Automated Time-Table was finalized.
- 3) Generalized flow chart for the entire steps that will be taken for the development was made. (Image Uploaded)

4) Rough Project Architecture:

- For different access to faculty and admin, we need to create a login page.
- After login by faculty, they need to mention the days and time they are available and submit it.
- When all the faculties would have filled then the admin will be notified and can generate the time-table.

Conclusion:

Flowchart was made for the project course and architecture was decided.

Next Meeting Agenda:

Deciding division of work based on the individual skills.
